   ✔ Approved.
2. Discussion of collaborating with University Relations to create a library web site that fits within the University look-and-feel. (Chris Tanis)
   - With an introduction from JG, CT discussed the possibility of working with the library to implement Drupal as the CMS not only for the library, but also University-wide, as their current system is due to be replaced since it is no longer supported by the vendor. There followed a discussion of how the needs of the library would be accommodated in such a joint endeavor between UR and the library.
